Special Lecture

Clinical Neurophysiology

Scope, training, new development

Speaker: Professor emerita Eva Svanborg

Department of Clinical Neurophysiology

University Hospital and Linköping University, Linköping, Sweden

Professor emerita Eva Svanborg is a renowned expert in clinical neurophysiology. She has been the head of the department of clinical neurophysiology at Linköping University Hospital in Sweden, the president of the Swedish Society for Clinical Neurophysiology, and the chair of the section of clinical neurophysiology in the European Union of Medical Specialists (UEMS). In this special lecture, she will talk about the new development of the specialty in neuromuscular diagnoses, and share with us the other excellent works at her unit. With her board experience in leading the related training in Europe, she will also discuss the latest development and opportunities of neurophysiology training in the region. Upon completion of this lecture, seasoned experts will be updated in the advances of the field and novices will be broadened their scope and the training options in clinical neurophysiology.

Date: 16 February 2017 (Thursday)
Time: 18:30 - 20:00
Venue: Lecture Theatre, Block A, Ground floor,
Queen Elizabeth Hospital, Kowloon
Moderator: Dr. Michael Fu
